

Climate Change: An Indian Perspective

By Dr Sushil Kumar Dash

Cambridge University Press, Cambridge, UK, 2007. Hardcover. Book Condition: Brand New. Dust Jacket Condition: Brand New. First Edition. The disturbing changes occurring in the global climate and environment has been a matter of concern for the current generation. The exploration and exploitation of nature by human beings have placed tremendous and undue stress on the natural resources. Some of the recent signals of global changes warrant reconsideration of the whole concept of industrial growth that has been adopted so far. The issue of climate change due to human activities can be analysed under two broad categories: emissions of Greenhouse Gases (GHGs) and the nearly irreversible damage to the environment. Reducing emissions of GHGs is intimately connected with economic issues and hence a matter of global politics. It needs to be handled through global negotiations and, ultimately, through the use of alternate sources of energy and clean technology. The second category is more dangerous, since the recovery process will be extremely slow and the corrective measures more complicated than those for the GHG abatement. Large-scale mass movements, and not mere government policies or laws, are necessary to tackle this factor. The study of climate change encompasses various disciplines, viz. science, social...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
